## News & Views

### Change to Policy for Unenrolled Prescribers

Starting July 1, 2024, for any Fee-for-Service Pharmacy claims, Medicaid will not pay for medications if the prescribing practitioner is not enrolled with Maryland Medicaid. This is a Federal requirement.

The pharmacy claim will be denied with the following message: "NCPDP Edit 25 M/I Prescriber Identification" in the response transaction, and pharmacies that are able to view the long message in the response transaction will notice the following message: "UNENROLLED PRESCRIBER. STARTING 7/1/24 CLAIM WILL DENY UNLESS THE PRESCRIBER ENROLLS WITH MARYLAND MEDICAID VIA EPREP. FOR MORE INFO DIRECT PRESCRIBER TO <http://bit.ly/3TKORP>"

For additional information, please scan the following QR code:

### Maryland Medicaid Preferred Drug List (PDL)

The Maryland Medicaid Preferred Drug List (PDL) shown in this newsletter is effective as of July 1, 2024. Only drugs that are part of the listed therapeutic categories are affected by the PDL. Therapeutic categories not listed here are not part of the PDL and will continue to be covered for Maryland Medicaid participants. Brand names listed in parentheses are only listed as a reference.

For most multi-source products, the generic products are usually preferred and the branded innovator product is non-preferred. If a generic product is non-preferred, the corresponding brand product is also non-preferred except where specifically noted as "(generic only)". PDL products that are new to market require prior authorization until they are reviewed.

Key: Products in red, underlined, bold print = PDL change  
All lowercase letters = generic  
Leading capital letter = Brand name

Note: A 72-hour emergency supply of a non-preferred drug is available by calling 800-932-3918. A 30-day emergency supply is available for Tier 2 and Non-preferred Anti-psychotic agents (see more detailed information on the back page).

### CME/CE CREDITS

#### CONTINUING EDUCATION CREDITS

The MDH Office of Pharmacy Services provides live continuing medical education (CME) and continuing education (CE) programs on timely issues with latest research at no cost to participants twice a year. Check out previous seminars at:

## Generic vs. Brand Status on Maryland's PDL

Maryland Medicaid's Preferred Drug List (PDL), encompassing over 1800 drugs, covers most generic formulations of preferred multisource brand drugs without a prior authorization. If the prescription for a brand name drug is to be dispensed as written (DAW1), the prescriber must complete and submit a MedWatch form ([bit.ly/4eQlaeO](https://bit.ly/4eQlaeO)). The State's clinical pharmacy team will review the MedWatch form and notify the prescriber whether the request for the brand name drug is approved or denied. The State will forward the MedWatch form to the FDA when appropriate.

Exceptions to this rule are included in the attached PDL effective July 1, 2024. Claims for these brand name medications must be submitted with DAW 6 code and will be priced appropriately. A Maryland Department of Health MedWatch form will not be required. Claims with any other DAW code will reject. Please refer to complete PDL list at: <https://bit.ly/4cOVHK5>.

Not all generics are preferred. In some instances, the State prefers the multisource brand name drug over its generic equivalent because the branded drug is more cost effective than its generic counterpart.

- When the brand name drug is preferred, no MedWatch nor authorization is needed <sup>1,2</sup>.
- Pharmacy providers must enter a DAW code of 6 on the claim to have it correctly priced.
- If any problems are encountered during the on-line claim adjudication of preferred Brands, contact Conduent's 24-hour Help Desk at 800-932-3918 for additional system overrides related to the use of the correct DAW code (For example, when there is other insurance).

Therapeutic Class	Preferred BRAND	Non-Preferred GENERIC
Anticonvulsants	Sabril tablet, Powder Packet <sup>2</sup>	vigabatrin tablet, powder packet <sup>2</sup>
Anticonvulsants	Trileptal suspension (oral)	oxcarbazepine suspension (oral)
COPD Agents	Spiriva Handihaler	tiotropium bromide capsule
Glucocorticoids, Inhaled	Flovent HFA <sup>3</sup>	fluticasone propionate <sup>3</sup>
Glucocorticoids, Inhaled	Symbicort (inhalation)	budesonide/formoterol (inhalation)
Hypoglycemics, Insulins	Lantus Solostar <sup>3</sup>	insulin glargine Solostar <sup>3</sup>
Hypoglycemics, Insulins	Lantus vial <sup>3</sup>	insulin glargine vial <sup>3</sup>
Opioid Use Disorder Treatments	Narcan Nasal Spray <sup>3</sup>	naloxone nasal spray <sup>3</sup>
Opioid Use Disorder Treatments	Suboxone Film	buprenorphine/haloxone film
Stimulants and Related Agents	Adderall XR capsule	amphetamine salt combo ER capsule
Stimulants and Related Agents	Concerta tablet	methylphenidate ER tablet
Stimulants and Related Agents	Daytrana	methylphenidate transdermal
Stimulants and Related Agents	Focalin XR <sup>3</sup>	dexmethylphenidate XR capsule <sup>3</sup>
Stimulants and Related Agents	Vyvanse	lisdexamfetamine capsule
Ulcerative Colitis Agents	Pentasa <sup>3</sup>	mesalamine ER capsule <sup>3</sup>

<sup>1</sup> Unless the Program has established clinical criteria for the drug

<sup>2</sup> Is a non-preferred drug on the PDL and will require a prior authorization by the prescriber

<sup>3</sup> Both brand and generic are preferred

## Atypical Antipsychotic Agents: 30-day Emergency Supply

When the prescriber is not available to obtain prior authorization for an antipsychotic medication that is non-preferred or second tier, the pharmacist can obtain a one-time only authorization to dispense up to a 30-day emergency supply. Do not let patients leave the pharmacy without medication if there is concern that the patient will be unwilling or unable to return at a later time that day after prior authorization is approved.

To obtain authorization for an emergency supply of an anti-psychotic, call Conduent Technical Assistance at 800-932-3918. During the 30-day window, the pharmacist must notify the prescriber of the need to obtain a PA before the prescription can be filled a second time and make a note for his or her records of the date, time and person contacted at the prescriber's office.
